On Saturday, October 7, 2017 will be the fourth edition of the T-Classics Las Canteras, a journey that travels 1,500 meters inside the beach of Las Canteras, specifically with the exit located at Gravina Street and its arrival in La Puntilla, in front of the club Victoria Club.

The councils of City of Sea and Sports of the City of Las Palmas of Gran Canaria again push this test that regained in 2014 the crossing in the city, after disappearing a few years earlier, when the last time only five swimmers appeared.

On the website www.tcanteras.com you can make the registrations, which have already reached the figure of 150 swimmers, over 16 years old, with twelve different categories according to their ages.
